

ASIIN

No.1	Required Evidence	Evidence
1	Study regulations	Link
2	Documents/other sources where program-specific objectives and learning outcomes are written down and published, e.g. regulations, homepage, diploma supplement Detail	Link
3	Official document in which official programme name is indicated, e.g. Diploma Supplement, Transcript of Records, Study Regulations	Link
4	Objective-Module Matrix indicating how general outcomes are attained via individual modules (see Objectives-Module Matrix template)	Link
5	Study Plan or Curricular Overview in a table format that informs about the student workload (credit points and hours) for each module in every semester	Link
6	Module descriptions for all compulsory and elective modules (see Module Handbook template). They must also be provided for final projects, compulsory internships and all modules taken at partner institutions as part of a double- or joint degree.	Link
7	Official admission regulations	Link
8	Documents/other sources containing provisions for the recognition of externally acquired academic achievements	Link
9	Documents/other sources indicating that student workload is corroborated by the institution, e.g. student surveys	Link
10	Examination regulations	Link
11	A representative selection of graded exams/reports/ final projects and other student work, generally inspected during the on-site visit	Link
12	Statistical data about the progress of studies, e.g. number of students, average grade, failure rate, amount of re-sits, duration of studies, number of graduates and their distribution, etc.	Link
13	Academic and professional qualifications of all teaching staff involved in the programme (see Staff Handbook template). If the programme includes a double- or joint-degree option, qualifications must also be provided for the relevant teaching staff at the partner institutions.	Link
14	Cooperation agreements (e.g. learning agreements, agreements for the use of laboratories, etc. – only relevant in cooperation with other universities, companies, research institutions, etc.)	Link
15	In case of an online audit, photo and/or video material of the program facilities and equipment	Link
16	Sample diploma or degree certificate	Link
17	Sample diploma supplement including all relevant study programme information	Link
18	Any other regulations which apply, e.g. code of conduct, teacher responsibilities, etc.	Link
19	Sample student survey questionnaire	Link
20	Results of student surveys	Link
